

Ghassan Emran

Full-Stack Web Developer

 ghassan.emran@email.com |  +1 (555) 123-4567 |  LinkedIn: linkedin.com/in/ghassanemran |  GitHub: github.com/ghassanemran

Professional Summary

Experienced Full-Stack Web Developer with 5+ years of expertise in designing, developing, and deploying scalable web applications. Proficient in modern frontend and backend technologies with a strong focus on user experience and performance optimization. Proven track record of delivering high-quality solutions in fast-paced environments and collaborating effectively with cross-functional teams.

Technical Skills

Frontend Technologies: - JavaScript (ES6+), TypeScript, HTML5, CSS3 - React.js, Vue.js, Angular - Redux, Vuex, Context API - Responsive Design, Bootstrap, Tailwind CSS - Webpack, Vite, Parcel

Backend Technologies: - Node.js, Express.js, Nest.js - Python (Django, Flask, FastAPI) - PHP (Laravel, Symfony) - RESTful APIs, GraphQL - Microservices Architecture

Databases: - MySQL, PostgreSQL, MongoDB - Redis, Elasticsearch - Database Design & Optimization

DevOps & Tools: - Docker, Kubernetes - AWS, Google Cloud Platform, Azure - CI/CD (Jenkins, GitHub Actions, GitLab CI) - Git, GitHub, GitLab - Linux/Unix Systems

Testing & Quality Assurance: - Jest, Mocha, Cypress - Unit Testing, Integration Testing - Test-Driven Development (TDD)

Professional Experience

Senior Full-Stack Developer

TechSolutions Inc. | *January 2022 - Present*

- Led development of enterprise-level web applications serving 100,000+ users
- Architected and implemented microservices-based backend systems using Node.js and Docker
- Developed responsive frontend interfaces using React.js and TypeScript
- Optimized application performance, reducing load times by 40%
- Mentored junior developers and conducted code reviews
- Collaborated with product managers and designers to deliver user-centric solutions

Key Achievements: - Spearheaded migration from monolithic to microservices architecture - Implemented automated testing pipeline, increasing code coverage to 95% - Reduced deployment time from 2 hours to 15 minutes through CI/CD optimization

Full-Stack Developer

Digital Innovations LLC | *March 2020 - December 2021*

- Developed and maintained multiple client-facing web applications
- Built RESTful APIs using Express.js and integrated with various third-party services
- Created responsive user interfaces using Vue.js and modern CSS frameworks
- Implemented real-time features using WebSocket technology
- Participated in agile development processes and sprint planning

Key Achievements: - Delivered 15+ successful projects on time and within budget - Improved application security by implementing OAuth 2.0 and JWT authentication - Reduced server costs by 30% through database query optimization

Junior Web Developer

StartupHub Technologies | *June 2019 - February 2020*

- Assisted in developing e-commerce platforms using PHP and MySQL
 - Created interactive frontend components using JavaScript and jQuery
 - Participated in debugging and troubleshooting application issues
 - Collaborated with senior developers on code reviews and best practices
-

Education

Bachelor of Science in Computer Science

University of Technology | *2015 - 2019* - Relevant Coursework: Data Structures, Algorithms, Database Systems, Software Engineering - GPA: 3.7/4.0

Certifications

- **AWS Certified Solutions Architect - Associate** (2023)
 - **Google Cloud Professional Cloud Developer** (2022)
 - **MongoDB Certified Developer** (2021)
-

Notable Projects

E-Commerce Platform

Full-Stack Development / React.js, Node.js, MongoDB - Developed comprehensive e-commerce solution with payment integration - Implemented inventory management and order tracking systems - Achieved 99.9% uptime and handled 10,000+ concurrent users

Real-Time Chat Application

Full-Stack Development / Vue.js, Socket.io, Express.js - Built scalable real-time messaging platform - Implemented file sharing and video call features - Deployed using Docker containers on AWS ECS

Task Management System

Full-Stack Development / Angular, Python Django, PostgreSQL - Created collaborative project management tool - Implemented role-based access control and reporting features - Integrated with popular third-party tools via APIs
